acridine orange
  in diagnosis 9
adrenache
  in schistosomiasis 24
aerial surveys
  mosquito habitats 306ff
African Trypanosome Genome Project 3ff
AIDS
  opportunistic parasitic infections 150ff
alkyl hydroperoxide 141
amastigote
  Leishmania 31ff
amitochondriates 91
amoebiasis 1ff
  diagnosis 1ff
  epidemiology 1ff
  treatment 2
anaerobic protozoa
  therapeutic alternatives 212
  vaccine development 213
Anaplasma
  integrated control 173ff
  serodiagnosis 174
Ancylostoma caninum
  eosinophilic enteritis 51ff, 54
  IgE-mediated pathology 70ff
  tissue response to 51ff
animal models
  malaria 245ff
  schistosomiasis 314ff
Anopheles
  aerial surveys 306ff
  malaria transmission in Britain 344ff
Anoplocephala
  diagnosis of animal infection 295ff
antibiotics
  entomopathogenic nematodes 161ff
antibodies
  monoclonal (L) 41
anticoagulant
  mosquito 445
antifoliate–antimalarial combinations 136ff
antigen detection
  urinary 5
antigenic variation
  var genes 329ff
anthelmintics
  drug resistance 86ff
antimalarial agents 338ff
  costs/benefits of resistance 360ff
  microtubule inhibitors 234ff, 292 (erratum)
antioxidant enzymes
  peroxidoxins 139ff
  Schistosoma mansoni 284ff
Apicomplexa
  control 215ff
  invasion by 125
  merozoite mobility 6, (L) 41
  vestigial plastids 341
archival specimens
  helminths 289ff
artemisinin receptor 91

B

Babesia
  integrated control 173ff
  serodiagnosis 174
babesiosis
  malaria comparison 340
bednets 169
bioinformatics 346ff
  Plasmodium falciparum genome project 171, 342ff
biological species concept 10
BoCD (bovine cluster of differentiation)
  bovine hypodermosis 455ff
Borrelia burgdorferi
  host–parasite interactions 444
bovine ... *see also* cattle
bovine hypodermosis
  host immune system 455ff
bovine parasitic gastroenteritis 295ff
Brugia malayi

  immune dynamics 229ff

C

C3b–CR1 interactions
  in rosetting (L) 250
Ca^{2+}-binding proteins
  calreticulin 157ff
calreticulin function 157ff
camel trypanosomiasis 138
candidiasis
  in AIDS 150ff
carbohydrate degradation
  trypanosomes 266ff
cattle
  trypanotolerance 450ff
$CD4^+$ T cells
  Leishmania vaccine development 33
$CD8^+$ T cells
  Leishmania vaccine development 33
cerebral malaria (L) 378
Chagas disease
  clonal-histotropic model 119ff
  pathogenesis 119ff
chloroquin
  costs/benefits of resistance 360ff
chromatin
  trypanosomatids 64ff
clonality
  Plasmodium falciparum 197 (fig.)
  genetic epidemiology 323ff
coccidiosis
  control 215ff
  drug resistance 215
  vaccine development 217
coevolution
  genetic epidemiology 323ff
composite gels
  polyacrylamide-agarose 38ff
Cowdria
  integrated control 173ff
  serodiagnosis 174
Crithidia
  kinetoplast DNA minicircle database 437 (fig.)
  purine stress 277ff
Cryptobia (*Trypanoplasma*) *salmositica*
  protection against 272ff
cryptobiosis
  salmonid, protection against 272ff
cryptosporidiosis
  in AIDS 152
  waterborne 14ff
Cryptosporidium
  control 215ff
  diagnosis of animal infection 295ff
  marsupial disease 133
  PCR detection (L) 241ff, 469
  strain differentiation 243
Cryptosporidium parvum
  infection in AIDS 152
cyclosporin 418
cyst wall proteins
  Giardia lamblia 446ff
cysteine proteinases
  Leishmania 220ff, (L) 251
cytoadherence
  var multigene family 329

D

data gathering (L)167
DHEA (dehydro-epiandrosterone)
  in schistosomiasis 24
diagnosis
  animal parasitism 295ff
Diclidophora merlangi
  musculature 73
DNA
  archival 291
  cDNA libraries 347
  ribosomal, *Entamoeba* 181ff
DNA vaccines
  malaria 56ff
drug resistance 393
  coccidiosis 215
  costs and benefits 360ff
  malaria 136ff, 462
  praziquantel 390ff
  schistosomiasis 379ff, 393, 419ff
  sheep parasites 86ff
  transcriptional regulation and 264
  trypanosomiasis 445

E

Echinococcus
  diagnosis of animal infection 295ff
Echinococcus granulosus (L) 124
ecological niche 10ff
Eimeria
  control 215ff
  infections, role of TNF in 134
electron-transport chains
  trypanosomes 268
emerging infections 134ff
encystation
  Giardia lamblia 446ff
Endotrypanum
  kinetoplast DNA minicircle database 437 (fig.)
Entamoeba
  ribosomal DNA plasmids 181ff
  therapeutic alternatives 212

Entamoeba dispar 1
Entamoeba histolytica 1
  peroxidoxins 144
entomological inoculation rates 138
entomopathogenic nematodes 161ff
eosinophilic enteritis 51ff, 54
  hookworm-provoked 70ff
epidemiology
  genetic 323ff
  peak shift 428ff
epitope
  library 202ff
  tagging, *Leishmania* (L) 41
eukaryotes
  guanine nucleotide-binding proteins 27ff
evolution
  nematode life-history 193ff
evolutionary genetics 324
exo-erythrocytic antigens 338
expressed sequence tags (ESTs) 3

F
Fansidar resistance 136ff
Fasciola
  vaccine development 224ff
Fasciola hepatica
  musculature 73
filariasis
  epidemiology 429ff
  Liverpool School of Tropical Medicine 441
  lymphatic *see* lymphatic filariasis
fish tags 180
flatworms *see* platyhelminths

G
G proteins *see* guanine nucleotide-binding proteins
gametocytes 138
gametocytogenesis
  and cerebral malaria (L) 378
gastrointestinal nematodes
  sub-Saharan (L) 468
gastrointestinal parasites
  West Africa 46ff
gene expression
  differential 163ff
gene knockout 125
  malaria 90
gene transcription *see* transcription
genome projects 346ff
  helminths 131
  Leishmania 301ff
  Plasmodium falciparum 171, 342ff
  schistosomes 395
  Trypanosoma brucei 3ff, 129ff
geographic information systems (GIS) 135
  tsetse control 457ff
giant proteins
  Plasmodium falciparum 38ff
Giardia
  as zoonosis 8
  in Aboriginal populations 133
  therapeutic alternatives 212
Giardia duodenalis
  pathogenic avian 281ff
Giardia lamblia
  molecular mechanisms of encystation 446ff
global change
  vector-borne diseases 297ff
global mapping
  lymphatic filariasis (L) 333
global warming 133
  malaria in Britain 345
glucose transport
  schistosomes 402ff
glutathione peroxidase
  schistosome host–parasite interactions 284ff
glutathione *S*-transferase 100, 102
Golgi complex
  Giardia lamblia 446ff
guanine nucleotide-binding proteins 27ff

H
helminths
  archival molecular information 289ff
  genome projects 131
  guanine nucleotide-binding proteins 27ff
  sub-Saharan gastrointestinal (L) 468
  vaccine development 131ff
Heterorhabditis
  antibiotics from 161ff
histone genes
  trypanosomatids 64ff
HIV
  and malaria 365ff
hookworms
  and eosinophilic enteritis 51ff, 54
  IgE-mediated pathology 70ff
  tissue response to 51ff
hydatid disease
  urinary antigen detection 5
hypnozoites
  and malaria (L) 377
Hypoderma
  diagnosis of animal infection 295ff
Hypoderma lineatum
  host immune system 455ff
hypodermin A
  inhibition of lymphocyte proliferation 455ff
hypodermosis
  bovine, host immune system 455ff

I
ick (white spot disease) 180
immune responses
  schistosomiasis 97ff, 102
immunity
  acquired 428
  cross-species (L) 166
  innate 354ff, 364ff
immunoglobulin E pathology
  hookworm-provoked 70ff
immunolabelling
  schistosomiasis 115ff
immunomodulation
  Hypoderma lineatum 455ff
infection level
  peak shift 428ff
insect–parasite interactions 253ff
insecticides
  drug resistance 86ff
  entomopathogenic nematodes 161ff
  pour-ons 77ff
insects
  biological contrast with ticks 186ff
integrated control
  tick-borne diseases 173ff
interleukin 13 (IL-13)
  helminths 132
iron acquisition
  parasitic protozoa 348ff
Ixodes scapularis
  host–parasite interactions 444

K
kangaroo parasites 133
kinetoplast
  DNA minicircle database 437
  trypanosomatids 64ff

L
lactate dehydrogenase
  and malaria diagnosis 376ff
LDH antibodies 180
Leishmania 55
  amastigote target antigens 31ff
  chromosomal organization 301ff
  cysteine proteinases 220ff, (L) 251
  drugs against 304
  energy metabolism 265ff
  epitope tagging (L) 41
  genome project 301ff
  iron uptake 351ff
  host–parasite interplay 342
  kinetoplast DNA minicircle database 437(fig.)
  Sauroleishmania (L) 167
leishmaniasis
  Africa 180
  Liverpool School of Tropical Medicine 441
ligands
  phage display libraries 202ff
linkage disequilibrium
  Plasmodium falciparum 197 (fig.)
liver fluke
  cathepsin L proteases 224
  haemoglobin 226
  vaccine development 224ff
Liverpool School of Tropical Medicine 440ff
lizards
  Sauroleishmania (L) 167
llamas
  meningeal worm infection 8
Lyme disease 444
lymphatic filariasis
  animal models 232
  global mapping (L) 333
  immune dynamics 229ff
  transmission intensity 232
lymphocyte proliferation
  hypodermin A 455ff

M
malacology
  medical 256ff
malaria 337ff *see also Plasmodium*
  adaptive vs innate resistance 364ff
  aerial surveys 306ff
  African Malaria Vaccine Testing Network (AMVTN) 222
  animal models 172, 245ff
  antifoliate–antimalarial combinations 136ff
  antigens 347

babesiosis comparison 340
bloodstage, immunity 364ff
cerebral (L) 378
chemotherapy 260
chronic (L) 207
control 211, 339ff, 369ff
cross-species immunity (L) 166
diagnosis 339, 376ff
distribution 304
drug resistance 136ff, 462
evolution of parasites 180
genotyping 462ff
global warming 345
HIV and 365ff
hypnozoites (L) 377
Liverpool School of Tropical Medicine 441
merozoite invasion (L) 41, 6ff
microtubule inhibitors 234ff, 292 (erratum)
microtubule polymerization (L) 41, 6ff
molecular epidemiology 85
molecular function 88ff
monsoon and 169ff
mortality (L) 293, 258ff, 369ff
multilateral initiative 222
naturally acquired immunity 337ff
palaeolithic times 9
parasite effect on host and vector behavior 9
PCR genotyping 462ff
Pf155 ring erythrocyte surface antigen 347
PfEMPI antigen 177ff
pre-erythrocytic cycle (L) 82
recrudescence 462ff
rise of, in Africa 9
satellite sensors 306ff
seasons 306ff
strains of 170
transfection 88ff, (L) 125, 245ff
transmission 253, (L) 293, 344ff, 369ff
vaccine development 56ff, 137, 171ff, 192 (corrigendum), (L) 207, (L) 251, 218ff, 254ff, 338
variant-specific immunity in asymptomatic infections (L) 208, 177ff
Malaria Consortium 211
marsupial parasites 133
media accountability 135
medical parasitology
undergraduate teaching 127ff
merozoite invasion
molecular mechanisms (L) 41, 6ff
microtubule inhibitors
as antimalarial agents 234ff, 292 (erratum)
Moniezia expansa
musculature 75
monoclonal antibodies
epitope tagging (L) 41
mosquitoes
anti-coagulant 445
conservation 260
etymology 445
habitat 306ff
monsoon and 169ff
mortality 362ff
mouse
avian *Giardia* infection of 281ff
trypanotolerance 450ff
Muellerius capillaris (L) 124
multiparasitism
epidemiology 46
sub-Saharan (L) 468
West Africa 46ff
musculature, platyhelminths 73ff

N

Nematoda/Nemata
terminology 445
nematodes 55
ancestry 8, 395
caudal secretions 223
drug resistance 86ff
entomopathogenic 161ff
life-history evolution 193ff
plant pathogenic 304
rate of evolution 8
sub-Saharan gastrointestinal (L) 468
Neospora
control 215ff
diagnosis of animal infection 295ff
nerve growth factor
in schistosomiasis 314ff
neuroinflammatory infections
Schistosoma mansoni 314ff
3′-nucleotidase
Crithidia 277ff
nucleotide binding proteins
guanine 27ff
nurse cell
Trichinella spiralis 318ff

O

onchocerciasis
Liverpool School of Tropical Medicine 441
opportunistic pathogens 150ff

P

paramyosin
as schistosomiasis vaccine 115ff
parasites
international transport 223
PCR *see* polymerase chain reaction
peak shift
in infection level 428ff
peptide library 202ff
peroxidoxins 139ff
pest repellants 305
Pf11-1 39
Pf332 39
PfEMPI 177ff, 329ff

ELSEVIER TRENDS JOURNALS TECHNICAL TIPS ONLINE
TECHNICAL TIPS ONLINE
Welcome to the latest technical tips provided by Elsevier Trends Journals. You can look for tips in the categories below, search using keywords and author names etc., visit companies and explore links via the gateway, or look at the latest product news.
BECKMAN Focused on the Chemistry of Life
Polymerase chain reaction
Electrophoresis
Microbiology
Purification methods
Gene expression
Microscopy
Tissue culture
Cloning & Sequencing
New Articles - those published within the last 28 days
Articles last loaded 26 Nov 97. Next set of articles will be loaded 10 Dec 97.
